QT Pulse

School Health Longitudinal Survey

Continuing Report

Example Public School

21 June

Term 2 2024

QT Academy

Example Public School

The QT Pulse: School Health Longitudinal Survey is a tool for schools to reflect on school climate for the purposes of creating positive change.

Your Continuing Report is designed to:

- Describe **trends across time** in your **school climate**

Information within this report should be treated as sensitive. This information should never be used for performance management. Only data from completed survey responses are included in this report.

Surveys collected for this report

2023 Term 3	2023 Term 4	2024 Term 1	2024 Term 2
42	45	44	47

Interpreting the data

Measures are presented in three groups: **Personal, Collective, and Students.**

A sample question is provided to give an indication of the measure.

In this report you will see two types of graphs in each section.

The first graph compares your school to an “average school” that is representative of a larger data set.

The second graph shows how your school’s responses are distributed across Low, Mid, and High categories.

Example graphs

Personal

Personal refers to the way teachers perceive their own practice, connectedness to the school and well-being. Measures are made up of one or more survey questions:

Measure	Example question
Effective Practice	I am a successful teacher
Teacher Responsibility	Many of the students I teach are not capable of learning the material I am supposed to teach them
Connectedness	I feel like I belong at this school
Burnout	I feel emotionally drained from my work
Sleep Quality	During the past 7 days, how would you rate your sleep quality overall?

Effective Practice

Teacher Responsibility (Lower is better)

Connectedness

Burnout (Lower is better)

Sleep Quality

Collective

Collective captures the way teachers feel about the school environment they are working in. Measures are made up of one or more survey questions:

Measure	Example question
School Morale	Morale is high in this school
Collaboration	There is collaborative practice at this school
Shared Responsibility	How many teachers in this school meet with other teachers to collaboratively plan?
Shared Vision	Teachers share the same ambitions and vision for the school

School Morale

Collaboration

Shared Responsibility

Shared Vision

Collective (cont.)

Measure	Example question
Teacher Trust	I trust the teachers in this school
Leadership Trust	I trust senior executive members in my school to keep their word
School Mission	The mission of your school regarding student welfare and academic achievement

Teacher Trust

Leadership Trust

School Mission

Students

Students refers to how the school is focusing on students and the interactions between teachers and students. Measures are made up of one or more survey questions:

Measure	Example question
Excellence and Equity	We promote personalised learning to fulfil the individual capabilities and needs of learners
Student Trust	I have a good relationship with my students
Parent Trust	How many of your students' parents do their best to help their children learn?
Confidence and Creativity	Students develop personal values and attributes such as honesty, empathy, loyalty
Student Behaviour	The level of student behaviour in this school

Excellence and Equity

Student Trust

Parent Trust
